

NEW

ELITE TRAVEL ROLLATOR™

At Signature Life, we believe that retirement should mark the beginning—not the end of new adventures in your life. Whether you're going about your routine or exploring new paths, the Elite Travel Rollator gives you the confidence you need to seize each moment. Locking hand breaks provide dependable stability, while a built-in seat allows you to rest and recharge. Mobility shouldn't come at the cost of convenience, so the Elite Travel Rollator quickly folds three times smaller than the average rollator. With the Elite Travel Rollator as your travel companion, you can embrace whatever opportunities come your way.
